

Domestic Use Tariffs

Codes 05, 06, 07 and 08

Tariffs for Domestic Use

Tariffs for **Domestic Use** are applicable where the electricity is solely used for domestic purposes to private dwellings. They are not applicable for exercising any profession or carrying out any commercial or industrial operations or business or for any other purposes related to these professions, commercial/industrial operations and business.

For the purpose of these tariffs, in case a question arises, whether the electricity supply is intended for any of the above mentioned purposes, EAC shall decide on the matter and its decision shall be final.

These tariffs are not applicable to electricity supplies for stand-by purposes.

DEFINITIONS

“Bi-monthly Period”, where the meter readings are taken bi-monthly, means the period from the commencement of the supply to the first routine meter reading, or the period from one such reading to the next, or the period from one such reading to the termination of the supply on any particular tariff, as the case may be. Where meter readings are taken once every four months, the bi-monthly consumption will be estimated.

“Off-peak Periods” are the periods which shall be determined from time to time by EAC at its absolute discretion and based on the System Load Curve. For the time being, Off-peak Periods are between 23:00 hrs and 7:00 hrs.

“Peak Periods” are the periods which shall be determined from time to time by EAC at its absolute discretion, and based on the System Load Curve. For the time being, Peak Periods are:

June to September inclusive, from 09:00 hrs to 17:00 hrs, Monday to Friday inclusive.

“Cost of fuel per metric tonne” means the average cost of fuel during the period coinciding with or preceding the period of consumption, as defined by EAC.

“Unit” means one kilowatt-hour (KWh).

“Low Voltage” means supply of electricity metered at 500 volt or less.

NOTES

- (1) The Coefficient of Fuel Adjustment is currently 0,00133 cent.
- (2) In the case of premises with more than one occupier/customer, where a separate point of supply is provided for each occupier/customer, EAC shall charge for each point of supply separately.
- (3) When more than one point of supply is provided to a customer, EAC has the authority and right to apply the appropriate tariff to each point of supply.
- (4) Where to a point of supply, more than one tariff might be applicable, the customers are entitled, once a year, to change their existing tariff to another alternative tariff, which may be applicable. A written notice (application) to that effect is required to be given to EAC before the 30th of November. The new tariff, so chosen, shall become effective as from the first billing period after the 31st of December of the year during which the notice was given.

EAC has the right to decide which of the tariffs are applicable to any point of supply and any type of use.

- (5) For existing customers terminating their supply before the expiration of the normal billing period, as well as for new customers with regard to the first billing period, the Fixed Charges shall be calculated in proportion to the number of days during which the supply was provided.
