

e-charge Service by the Electricity Authority of Cyprus

Question: What is the e-charge service and its target audience?

The e-charge service is a service offered all over Cyprus, by EAC to electric vehicles owners. Via this service the electric vehicle owners have access to safe and reliable charging of their vehicle in Public areas where EAC has already installed charging stations.

Question: How does anybody gain access to the system?

The electric vehicle owner must apply to any EAC Customer Service Center, in order to sign a Service Agreement and receive the RFID (Radio Frequency Identification) Card, which will give the owner immediate access to all charging stations that have already been installed or will be installed by EAC in the future.

Question: What is the connection cost with e-charge service ?

Each user of the system, is charged a flat fee of € 25,00 at the first bill. A bill with the consumption will be sent to the electric vehicle owner every two months.

Question: What is the charging power of the electric vehicle chargers installed?

The charging stations that have been installed are able to charge an electric vehicle up to 21kW (3-Ph). At each charging point there are two (2) charging plugs and can serve simultaneously two vehicles.

Question: Where are the electric vehicle charging stations located?

The electric vehicle charging stations have been installed at 20 selected points so far. The selected Public places aim to serve and enable the electric vehicle owner to travel throughout the island of Cyprus.
