## 1 Premise ID

The Premise ID is unique for each premise. It remains the same even if there is a change in tenancy and/or account number. For some EAC services, e.g. when reporting a fault to the EAC Contact Centre, customers may be asked to provide the Premise ID.

## 2 Load Ent./Fuse

**Load Entitlement** shows the Maximum Demand (in KVA) the customer is entitled and whether the load is single-phase or three-phase.

**Fuse** means the nominal value of electricity (in Ampere) which EAC's equipment allows to be supplied to your premises.

Please note :

- in cases where accounts were created several years ago, the load entitlement/fuse may not be shown.
- the Load Entitlement refers to Monthly Customers, while Fuse usually refers to Bi-monthly customers.

#### 4 Receiver Group

Applicable to tariffs:

56 - Storage of Thermal Energy Tariff and  
46 - Water-Pumping

It applies where there is a time restriction in electricity supply.

The receiver group determines the period of electricity supply for the purpose of storage of thermal energy or the hours of supply interruption for water-pumping.

## 5 METER READINGS (kWh)

In tariffs where the billing rate is fixed for all hours of the day and all the seasons of the year, only one meter reading is displayed.

## 6 Same period last year's consumption

It displays the electricity consumption during the same period of the previous year.

## 7 Graphic Illustration

The graphic illustrates the consumption of electricity for the current period related to the consumption of last year's period.

## 5 METER READINGS (kWh)

| Tariff            | Present | Previous | %kWh | Consumption |
|-------------------|---------|----------|------|-------------|
| 01                | 7715    | 6082     |      | 1633        |
| 56                | 170782  | 170755   |      | 27          |
| Total Consumption |         |          |      | 1.660 kWh   |

## 6 Same period last year's consumption 1.555 kWh

**8 Basic fuel price**  
**Current fuel price**

EAC tariffs are structured on a Basic Fuel Price of €300 per Metric Tonne (MT).

The Current Fuel price is the Weighted Average Fuel Price of the Month (WAFP) per MT for power energy production. The WAFP is calculated every month according to the fuel consumption and cost of fuel as shown below (in simplified form):

Cost of fuel consumption of the month + COSMOS charge\*  
+ cost of the greenhouse rights\*\*

Quantity of fuel consumed during the month

The current fuel price calculated every month is used for:

- **Monthly customers** whose meter reading is recorded the month following the calculation of the current fuel price and
- **Bi – monthly customers** whose meter reading is recorded two months following the calculation of the current fuel price.

\* COSMOS charge: A fee is paid by the EAC to COSMOS for every metric tonne of fuel consumed.

\*\* Cost of the greenhouse rights:  
The purchase cost of the greenhouse rights for the EAC's Power Stations emissions.

**COSMOS:** Cyprus Organisation for Storage and Management of Oil Stocks.

## 9 Fuel adjustment charge

The cost of Power Energy production depends on the cost of the fuel used for generation, which is adjusted on a monthly basis in the following way: The charge per kilowatt/hour (kWh) refers to the basic fuel price of €300/MT. For every 1 cent increase or decrease in the basic price of €300/MT of fuel cost, the price per kWh is increased or decreased by the value of the Coefficient of Fuel Adjustment currently in force.

The Fuel Adjustment Charge is calculated as follows:

$$\frac{(\text{Current Fuel Price} - \text{Basic Fuel Price}) \times \text{Coefficient of Fuel Adjustment} \times 100}{1}$$

- Current Fuel Price
- Basic Fuel Price: €300/MT
- Coefficient of Fuel Adjustment :
  - is the arithmetical coefficient that affects the fuel adjustment and is related to the production unit efficiency
  - Is revised every six months and
  - Is published on the EAC's website

The current fuel price calculated every month is used for:

- Monthly customers whose meter reading is registered the month following the calculation of the current fuel price and
- Bi - monthly customers whose meter reading is registered two months following the calculation of the current fuel price.

Indicates the consumption period of the bill.

## 12 Charges of Tariff

EAC has implemented the Operational Unbundling of its Activities, in accordance with the relevant EU Directive and Decision of CERA. The Authority carries out four Core Regulated Activities: Generation, Transmission, Distribution and Supply. This facilitates the opening up of the electricity market. According to the Operational Unbundling, the electricity tariff methodology provides for the transparent presentation of specific electricity charges as follows:

- **Electricity Generation:** The cost of generation of the electricity consumed
- **Network Usage:** The cost of using the Transmission & Distribution networks and the charge of the Cyprus Transmission System Operator (CTSO)
- **Ancillary Services:** The cost of the safety and uninterrupted operation of the electricity system
- **Meter Data Management:** The cost of meter data management
- **Electricity Supply:** The cost of the services of the Supplier of electricity for the management and service of its customers.

### 13 Special Tariff Discount

The Special Tariff Discount is a discount on energy charges for the customers who belong to tariffs with codes **46 (Water-Pumping)** and **56 (Storage of Thermal Energy)**, so that their charges are maintained at the same level of previous tariffs applicable prior to 01/09/2017.

### 14 Public Service Obligations

The Cyprus Energy Regulatory Authority (CERA), with its Decision No. 01/2010, approved as from 1/8/2010 the Electricity Authority of Cyprus (EAC) recovers the expenses incurred, due to the additional costs that aroused by the application of the Domestic Use Special Tariff for Specific Categories of Vulnerable Customers (Code 08), by charging the customers' electricity bills with **Public Service Obligations (PSO)**.

The Public Service Obligations fee is charged to all customers based on their electricity consumption.

## 15 RES & ES Fund

A special charge that EAC collects and deposits in the Renewable Energy Sources (RES) and Energy Saving (ES) Fund of the Ministry of Energy, Commerce and Industry.

The Law N.33(I)/2003 provides the promotion and encouragement of the use of Renewable Energy Sources (wind or solar energy, biomass, etc.) and the creation of a Special Fund for subsidising or financing them.

The special fee for RES & ES Fund is charged to all customers based on their electricity consumption.

This amount is not subject to VAT.

## 16 Total Charges

### Total Basic Price:

It is the total amount resulting from the variable and fixed charges of each Tariff.

### Total subject to VAT {19%}:

It is the total amount subject to VAT.

It includes:

- The **Total Basic Price**
- The Fuel Adjustment
- The Public Service Obligations
- The Special Tariff Discount

### Total Charges for the period before VAT:

Is the **Total subject to VAT {19%}** and the charge of RES & ES Fund, which is not subject to VAT. It also includes the interest for late payment if it exists.

This total is mainly needed for accounting purposes.

### Total Charges for the period:

Is the **Total Charges for the period before VAT**, plus the VAT charge.

This is mainly needed for accounting purposes.

## 17 Amount due Payable until

### Amount due:

It is the amount that includes all customer charges and any outstanding amount (arrears) of a previous account, minus any credits (prepayment, credits made on the basis of the Customer's Chart), which the customer must pay to EAC within the specified date stated on the account.

### Payable until:

It shows the timeframe that the customer has at his disposal to pay his bill. After the due date of payment, bills may be settled **only** at EAC Customer Service Centers and online by using the three Check Digits.

## ΣΗΜΑΝΤΙΚΗ ΕΝΗΜΕΡΩΣΗ

Εάν η ζωή κάποιου απόψε στη κατοικία σας εξαρτάται από τη λειτουργία ηλεκτρικών συσκευών, παρακαλούμε να ενημερώσετε άμεσα ένα από τα Κέντρα Εξυπηρέτησης Πελατών (ΚΕΠ) της ΑΗΚ. Με τον τρόπο αυτό θα έχετε ειδικά μέριμνα για την ηλεκτροδότηση και εξυπηρέτησή σας.

## ΕΠΕΞΗΓΗΣΗ ΛΟΓΑΡΙΑΣΜΟΥ

Η ΑΗΚ εφαρμόζει τον Λειτουργικό Διαχωρισμό των Δραστηριοτήτων της σύμφωνα με Ευρωπαϊκή Οδηγία και σχετική απόφαση της ΡΑΕΚ. Έτσι δημιουργούνται τέσσερις Ρυθμιζόμενες Ανεξάρτητες Δραστηριότητες: Παραγωγή, Μεταφορά, Διανομή και Προμήθεια. Αυτό διευκολύνει το άνοιγμα της αγοράς ηλεκτρικής ενέργειας. Σύμφωνα με τον Λειτουργικό Διαχωρισμό η μεθοδολογία διατιμήσεων ηλεκτρισμού προνοεί τη διαφανή παρουσίαση των επιμέρους χρεώσεων του κόστους ηλεκτρικής ενέργειας ως εξής:

- **Παραγωγή Ηλεκτρικής Ενέργειας:** Το κόστος παραγωγής της καταναλωθείσας ηλεκτρικής ενέργειας
- **Χρήση Δικτύου:** Το κόστος χρήσης των δικτύων Μεταφοράς & Διανομής και της δαπάνης του Διαχειριστή Συστήματος Μεταφοράς Κύπρου (ΔΣΜΚ)
- **Επικουρικές Υπηρεσίες:** Το κόστος για την ασφάλεια και απρόσκοπτη λειτουργία του συστήματος ηλεκτρικής ενέργειας
- **Διαχείριση Μετρητικών Δεδομένων:** Το διαχειριστικό κόστος μετρητικών δεδομένων
- **Προμήθεια Ηλεκτρικής Ενέργειας:** Το κόστος των υπηρεσιών του Προμηθευτή ηλεκτρικής ενέργειας για τη διαχείριση και εξυπηρέτηση των πελατών του.

**Ειδική Έκπτωση Διατίμησης:** Εφαρμόζεται στις διατιμήσεις με κώδικες 36, 46, 56, 50 και στη 40 (υπό προϋποθέσεις), όπου ο υπολογισμός τους σύμφωνα με την οδηγία της ΡΑΕΚ, θα οδηγούσε σε αυξήσεις. Η ΑΗΚ καλύπτει τη διαφορά της αύξησης αυτής.

**Αναπροσαρμογή Τιμής Καυσιμών:** Το κόστος παραγωγής ηλεκτρικής ενέργειας εξαρτάται από το κόστος των καυσίμων που χρησιμοποιούνται για την παραγωγή της, το οποίο προσαρμόζεται σε μηνιαία βάση ως εξής: Η τιμή χρέωσης της κυλοβατώρας (kWh) αναφέρεται στη βασική τιμή καυσίμων €300/MT. Για κάθε 1 σεντ αύξηση ή μείωση της τρέχουσας τιμής καυσίμων από τη βασική τιμή των €300/MT, η τιμή της κυλοβατώρας (kWh) αυξάνεται ή μειώνεται ανάλογα με την εκάστοτε ισχύουσα τιμή του Συντελεστή Ρήτρας Καυσίμων. Στην αναπροσαρμογή τιμής καυσίμων περιλαμβάνεται και το κόστος για αγορά δικαιωμάτων θερμοκηπιακών αερίων.

**Συντελεστής Ρήτρας Καυσίμων:** Ο αριθμητικός συντελεστής που επηρεάζει την αναπροσαρμογή καυσίμων και σχετίζεται με το κόστος του μείγματος.

**Τρέχουσα Τιμή Καυσίμων:** Η μέση τιμή αγοράς καυσίμων ανά Μετρικό Τόνο (MT) για την παραγωγή ηλεκτρικής ενέργειας.

**Υποχρεώσεις Παροχής Δημόσιας Υπηρεσίας (ΥΠΑΥ):** Σύμφωνα με Υπουργική Απόφαση, η ΑΗΚ εφαρμόζει την ειδική οικιακή διατίμηση για συγκεκριμένες κατηγορίες ευάλωτων καταναλωτών, με κώδικα 08.

**Ταμείο ΑΠΕ & ΕΞΕ:** Ειδικό τέλος το οποίο η ΑΗΚ εισπράττει και αποδίδει στο Ταμείο Ανανεώσιμων Πηγών Ενέργειας (ΑΠΕ) και Εξοικονόμησης Ενέργειας (ΕΞΕ) του Υπουργείου Ενέργειας, Εμπορίου και Βιομηχανίας.

## ΕΝΕΡΓΕΙΑΚΟ ΜΕΙΓΜΑ ΓΙΑ ΤΟ ΕΤΟΣ 2023

|                | ΕΝΕΡΓΕΙΑΚΟ ΜΕΙΓΜΑ ΠΡΟΜΗΘΕΙΑΣ ΑΗΚ | ΕΝΕΡΓΕΙΑΚΟ ΜΕΙΓΜΑ ΚΥΠΡΟΥ |
|----------------|----------------------------------|--------------------------|
| Ορυκτά καύσιμα | 83,41%                           | 82,77%                   |
| ΑΠΕ            | 16,33%                           | 16,97%                   |
| Άλλες πηγές    | 0,26%                            | 0,26%                    |

Οι περιβαλλοντικές επιπτώσεις του ενεργειακού μείγματος της Προμήθειας ΑΗΚ κατά το έτος 2023 όσον αφορά τις εκπομπές θερμοκηπιακών αερίων (CO<sub>2</sub>) είναι 626,78 gCO<sub>2</sub> / kWh πωληθείσας ενέργειας.

## Y - ΥΠΟΛΟΓΙΖΟΜΕΝΗ ΚΑΤΑΝΑΛΩΣΗ

Το σύμβολο «Y» εμφανίζεται δίπλα από την ένδειξη του μετρητή, αν η καταγραφή δεν είναι δυνατή. Ο υπολογισμός της κατανάλωσης σας, έγινε με βάση την πραγματική κατανάλωση του αντίστοιχου περσόνου λογαριασμού. Η προσαρμογή της υπολογιζόμενης κατανάλωσης θα γίνει με την καταγραφή της επόμενης ένδειξης του μετρητή σας.

## ΔΙΑΚΟΠΗ ΠΑΡΟΧΗΣ Ή ΑΛΛΑΓΗ ΠΡΟΜΗΘΕΥΤΗ

Εάν θα εγκαταλείψετε το υποστατικό σας ή εάν επιθυμείτε να αλλάξετε Προμηθευτή, ενημερώστε την ΑΗΚ εγκαίρως ώστε να μην χρεωθείτε με κατανάλωση που ενδεχομένως να προκύψει από τρίτους, μέχρι την ημερομηνία της μεταβίβασης και/ή επανένδοσης στον επόμενο πελάτη ή μέχρι τον τερματισμό της ΣύμβΑΣΗΣ Προμήθειας. Σε περίπτωση μη εμπρόθεσμης εξόφλησης του λογαριασμού σας, ο Προμηθευτής έχει το δικαίωμα να διακόψει την προμήθεια ηλεκτρικής ενέργειας στο υποστατικό σας.

## ΤΡΟΠΟΙ ΕΞΟΦΛΗΣΗΣ ΛΟΓΑΡΙΑΣΜΟΥ

Με μετρητή, επίταξη ή πιστωτική κάρτα, με αυτόματη εξόφληση μέσω τραπεζικής εντολής, μέσω διαδικτύου, με το Σχέδιο Πληρωμής Λογαριασμού με Μηνιαίες Δόσεις. Οι λογαριασμοί μετά τη λήξη τους εξοφλούνται μόνο στα ΚΕΠ της ΑΗΚ και μέσω διαδικτύου.

## IMPORTANT INFORMATION

If the life of someone in your home is dependent on the smooth functioning of electricity-powered devices, please inform one of EAC's Customer Service Centres immediately. This will ensure that you receive special care and attention regarding your electricity supply and your service.

## YOUR BILL EXPLAINED

EAC has implemented the Operational Unbundling of its Activities, in accordance with the relevant EU Directive and decision of CERA. The Authority carries out four Core Regulated Activities: Generation, Transmission, Distribution and Supply. This facilitates the opening up of the electricity market. According to the Operational Unbundling, the electricity tariff methodology provides for the transparent presentation of specific electricity charges as follows:

- **Electricity Generation:** The cost of generation of the electricity consumed
- **Network Usage:** The cost of using the Transmission & Distribution networks and the charge of the Cyprus Transmission System Operator (CTSO)
- **Ancillary Services:** The cost of the safety and uninterrupted operation of the electricity system
- **Meter Data Management:** The cost of meter data management
- **Electricity Supply:** The cost of the services of the Supplier of electricity for the management and service of its customers.

**Special Tariff Discount:** It is applied to tariffs 36, 46, 56, 50 and 40 (under certain conditions), where their calculation, in accordance with the CERA directive, would lead to increases. EAC covers the difference of this increase.

**Fuel Adjustment Charge:** The cost of electricity generation depends on the cost of the fuel used in generation, which is adjusted on a monthly basis in the following way: The charge per kilowatt/hour (kWh) is included in the basic fuel price of €300/MT. For every 1 cent increase or reduction to the current price of fuel over the basic price of €300/MT, the price per kilowatt/hour (kWh) is raised or reduced in accordance with the current Fuel Adjustment Coefficient. The fuel adjustment charge includes the greenhouse gas emissions cost.

**Fuel Adjustment Coefficient:** The arithmetical coefficient that affects the fuel adjustment and is related to the cost of the fuel mix.

**Current Fuel Price:** The average price of fuel per Metric Tonne (MT) for electricity generation.

**Public Service Obligations (PSO):** According to a Ministerial Decision, EAC applies the domestic special tariff for specific categories of vulnerable customers, with code 08.

**Fund for RES & ES:** A special charge that EAC collects and deposits in the Renewable Energy Sources (RES) and Energy Saving Fund of the Ministry of Energy, Commerce and Industry.

## ENERGY MIXTURE FOR THE YEAR 2023

|               | ENERGY MIXTURE OF EAC SUPPLY | ENERGY MIXTURE OF CYPRUS |
|---------------|------------------------------|--------------------------|
| Fossil fuels  | 83,41%                       | 82,77%                   |
| RES           | 16,33%                       | 16,97%                   |
| Other sources | 0,26%                        | 0,26%                    |

The environmental impact of the energy mixture of EAC Supply in the year 2023 in terms of greenhouse gases emissions (CO<sub>2</sub>) is 626,78 gCO<sub>2</sub> / kWh of energy sold.

## E - ESTIMATED CONSUMPTION

The letter "E" appears next to the meter reading when it has not been possible to confirm the precise consumption. Your estimated consumption is based on the actual consumption recorded on the corresponding bill for last year. The estimated consumption will be amended when your meter is next read.

## DISCONNECTION OF SUPPLY OR SWITCHING SUPPLIER

If you intend to move from your existing premise or to switch Supplier, please inform EAC of this as soon as possible, so that you are not charged for any electricity consumed by others, until the transfer and/or reconnection to the next customer or until the termination of the Supply Contract. In case that you pay your bill after the due date, the Supplier has the right to terminate the supply of electricity to your premise.

## HOW TO SETTLE YOUR BILL

Cash, cheque or credit card, direct debit, online, through Monthly Installments Scheme (by special arrangement). After the due date for payment, bills may be settled only at EAC Customer Service Centres or online.

## ENERGY ORGANISATIONS

1. Cyprus Electricity Regulatory Authority (CERA), 20 Aylas Paraskevis street, 2002 Strovolos, [www.cera.org.cy](http://www.cera.org.cy)
2. Cyprus Energy Agency, 10-12 Lefkonos street, 1011 Nicosia, [www.cea.org.cy](http://www.cea.org.cy), [info@cea.org.cy](mailto:info@cea.org.cy).

At the back side of the electricity bill there are important explanations and information about the charges of the bill, as well as useful information for EAC's customers.
